Content Caching Concept

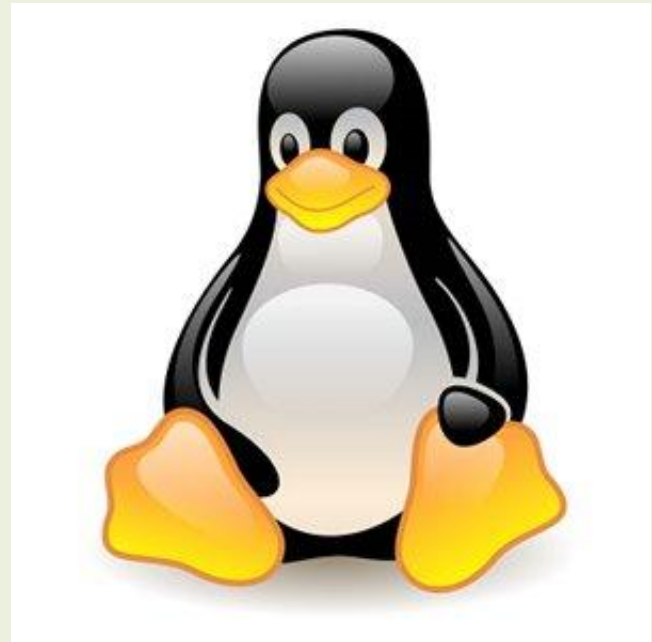

Orbit Testbed

- Orbit Test-bed Introduction
- Connected through SSH
- Run the introductory Experiment given in the tutorials

Linux

- Mostly used by programmers, developers and firms.
- Learned through tutorials
- Played with initial commands using Ubuntu.
- Will try to get familiarized with number of new codes, commands and their application.

Next Week Goals

- Conceptual understanding and functionality of some terms related to grid-computing that we are unfamiliar with.
- E.g, KVM, Bridge, DNAT, SNAT, openvswitch, floodlight.
- More detailed discussion on goals, design
